The Board of Education of San Luis Coastal Unified School District adopted the following District Goals for Strategic Planning on November 1, 2005:

Student Achievement and Well-Being

To provide for each student a safe school that knows and cares about the student, clarifies what is important for that student to know and be able to do, continually refines instructional practices, maintains accountability for student's achievement and well-being; and develops in the student a sense of personal responsibility for his or her education.

Budget Development

To develop a balanced budget based upon reasonable but conservative assumptions.

Facilities and Infrastructure

To plan for long-range systematic expansion/contraction, repair and replacement of district facilities and infrastructure.

Employee Recruitment and Retention

To develop systems for recruitment, induction, retention, placement, and professional growth of employees.

Community Confidence

To develop community confidence through active outreach, transparent processes, open communication, and meaningful partnerships.

Governance

To develop a community vision for our schools and a respectful forum for community input.

I. Data and Access

DataQuest is an online data tool located at <http://dg.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, *DataQuest* is a dynamic system that provides reports for accountability (e.g., Academic Performance Index (API), Adequate Yearly Progress (AYP), test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access is available at public libraries and other locations that are publicly accessible; e.g., the California State Library. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used, depending on availability, the types of software programs available on a workstation, and the ability to print documents.

II. About Pacheco Elementary School

School Description and Mission Statement

Students at Pacheco come from diverse cultural, social, and economic backgrounds. A large number of students live in public housing, but others come from high income neighborhoods due to the large attendance area of the school. The socioeconomic level of the Anglo students is continuing to rise, due to the greater number of students from upper level families choosing to enroll their children in Kindergarten at Pacheco through our Open Enrollment program. At this time Pacheco serves about 50% of the entire English Learner (EL) population of the City of San Luis Obispo and 35% of the entire elementary population of the district. More than 50% of the students receive free or reduced lunch, so the school qualifies for status as a Title I Schoolwide Program.

The Pacheco school community is committed to preparing our students for success in the 21st century. We expect the highest level of academic achievement in all areas. We teach skills which allow all students the opportunity to realize their full intellectual, physical, creative, emotional, and social potential. We take the responsibility for creating an environment in which all students in our culturally and socioeconomically diverse population can be successful learners.

Opportunities for Parental Involvement

Pacheco offers multiple opportunities for parents to become involved in their children's education. These include hundreds of hours each year logged as classroom and library volunteers. Pacheco has an extremely active PTA that provides a variety of school/community and fund raising events that have included Salsa Night, Walkathon, Carnival, Health Fair, and the Día del Niño. Parents are also recruited to chaperone on field trips and extended study trips. The English Learners Advisory Council also works closely with the PTA to provide the aforementioned events. For further information regarding opportunities for parental involvement, call the principal, Rick Mayfield, at 805-596-4081.

III. School Climate

School Safety Plan

Pacheco's Emergency Plan includes the following components: dangerous campus intrusion ("lock down procedures"), Nuclear Emergency Response, earthquakes, bomb threats, chemical accidents, and explosions. The plan was last updated in July 2008 and reviewed with staff in October 2008, immediately following the first drill of the year.

Suspensions and Expulsions

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

Expulsions	0	0	0	.1	.1	.2

IV. School Facilities

Facility Conditions and Planned Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the Buildings, Grounds and Transportation office.

Following is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Age of School Buildings

Pacheco School has 26 classrooms, a multipurpose room, a library and an office. The main campus was built in 1949; additions were constructed in 1953, 1961, 1972 and 1998.

Maintenance and Repair

The district maintenance staff ensures that repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. Many of our facilities were rehabilitated as part of our Measure A Building Program which began in 1996. District facilities are in very good shape.

School Facility Good Repair Status

This table displays the results of the most recently completed school site inspection to determine the school facility's good repair status.

Cleaning Process and Schedule

The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at Buildings, Grounds and Transportation. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2008-2009 school year, the district has budgeted \$300,000 for the deferred maintenance program, which represents 0.5% of the district's general fund budget.

Deferred Maintenance Projects

The complete deferred maintenance plan, approved by the Board of Education, is available at the Buildings, Grounds and Transportation office.

IX. Student Performance

Please note scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of an individual student.

California Standards Tests

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found on the Standardized Testing and Reporting (STAR) Results Web page at <http://star.cde.ca.gov>.

In 2007-2008, 40.9% of 5th grade students at this school met fitness standards (scoring in the healthy fitness zone on all six fitness standards). Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found at the Physical Fitness Testing Web page at <http://www.cde.ca.gov/ta/tg/pf/>.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the API Web page <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10% of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10% of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2005	2006	2007
Statewide	7	8	6
Similar Schools	8	8	6

API Changes by Student Group – Three Year Comparison

This table displays, by numerically significant student group, the actual API changes in points added or lost for the past three years, and the most recent API score.

Group	Actual API Change			Growth API Score
	2005-06	2006-07	2007-08	2008
All Students at the School	29	-26	15	805
Hispanic or Latino	25	-24	28	669
White (not Hispanic)	10	-21	4	946
Socioeconomically Disadvantaged	9	-18	22	646

Adequate Yearly Progress (2007-2008)

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics;
- Percent proficient on the state's standards-based assessments in ELA and mathematics;
- API as an additional indicator; and
- Graduation rate for secondary schools.

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria (2007-2008)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District
Overall	No	No
Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	No	No
Percent Proficient - Mathematics	Yes	No
API	Yes	Yes

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Indicator	School	District
Program Improvement Status	In PI	In PI
First Year of Program Improvement Implementation	2000-2001	2004-2005
Year in Program Improvement	Year 5	Year 3
Number of Schools Currently in Program Improvement		1
Percent of Schools Currently in Program Improvement		6.3%

XI. Instructional Planning and Scheduling

Professional Development

The district has funded an extensive professional development program using federal Title II Teacher Quality funds, Title III Limited-English-Proficient funds, Economic Impact Aid – State Compensatory Education (EIA-SCE) funds, district funds, site monies, and the Enhancing Education Through Technology (EETT) Grant. All staff members have access to the comprehensive Professional Development Calendar that is developed annually.

Since 2007, the district's major focus for staff development has been concentrated in the areas of English Learners, Intervention, Professional Learning Communities, and technology. Although most of our students are achieving at high levels, some of our subgroup populations are not. This data has provided the impetus for staff development and coordinated efforts to address this need.

In the area of English Learners, scheduled inservices have provided all classroom teachers with training on effective instructional strategies and practices to use with English Learners. In addition, all school sites have been provided the opportunity to send teams of staff members to English Learner (EL) inservices sponsored by outside agencies. Beginning Teacher Support and Assessment (BTSA) participants have received inservices focused on English Learners. Administrators, library technicians, paraprofessionals and clerical support staff have participated in or will participate in district EL inservices. Finally, California Teacher of English Learners (CTEL) preparation classes are being offered to teachers who need to earn their EL authorization.

In the area of intervention, members of our Response to Intervention (RtI) Committee have attended conferences and participated in visitations to other school sites in order to gather information to help determine the next steps in the RtI plans. Because reading is an area that greatly impacts our struggling students, staff development in recording student performance in reading and the Comprehensive Literacy Reform model is being provided to our elementary teachers and administrators.

In the area of Professional Learning Communities, school site teams attended a series of workshops presented by Tim Kanold, award-winning educator. District-facilitated workshops on essential standards and benchmark assessments, as well as district-provided reports and data analysis tools, have enhanced the discussions, during weekly collaboration time, that has focused on student progress and achievement.

In the area of technology, teachers of grades 4 through 6 have participated in effective instructional uses of technology through a professional development program supported by an Enhancing Education Through Technology Grant (EETT). In addition, all staff members have been trained in the use of our new student information system.

Various methods of support are provided to assist teachers with the implementation of professional development goals, including the following:

- Weekly collaboration time for all district teachers;
- Release time using substitutes;
- Student performance data reports; and
- Assistance from EL, Reading, and Title I Specialists.

For the three-year period of 2006-07 through 2008-09, three professional development days per year were scheduled to provide tools and instruction to staff to better serve our students.

The School Accountability Report Card (SARC), required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about this school, parents and community members should contact the school principal or the district office.
