In the spring of 2011, SLCUSD adopted its ten [Initiatives for Student Success](#). The State of California implemented the Local Control Funding Formula (LCFF) and [Local Control Accountability Plan](#) (LCAP) in 2014, we used them to help focus our Initiatives to support the state's goals. For 2014-2015, our focus areas will be:

FOCUS AREA 1: SLCUSD students will achieve substantial academic gains in mathematics.

FOCUS AREA 2: SLCUSD students will achieve substantial academic gains in English-Language Arts and Literacy.

FOCUS AREA 3: SLCUSD will provide student access to a world-class STEAM (Science Technology Engineering Arts and Math) and CTE (Career Tech Elective) program.

FOCUS AREA 4: SLCUSD will create an intentional culture of care, intervention, and support for all students.

FOCUS AREA 5: SLCUSD will expand technology and promote innovation in order to provide student access to personalized learning and to prepare for college and career readiness.

FOCUS AREA 6: SLCUSD will strengthen use of data cycle to improve academic achievement.

I. Data and Access

Ed-Data is a partnership of the CDE, EdSource, and the Fiscal Crisis and Management Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

DataQuest is an online data tool located at <http://dg.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., Academic Performance Index (API), Adequate Yearly Progress (AYP), test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access is available at public libraries and other locations that are publicly accessible; e.g., the California State Library. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used, depending on availability, the types of software programs available on a workstation, and the ability to print documents.

II. About Morro Bay High School

School Description and Mission Statement

Established in 1959, Morro Bay High School has been an integral part of our coastal community for more than 50 years. Morro Bay, once a quiet fishing town, and Los Osos, a bedroom community to San Luis Obispo, have transformed into vital socioeconomic centers of their own. Morro Bay High School is part of the San Luis Coastal Unified School District, a district with ten elementary schools (one charter school), two middle schools, two comprehensive high schools, and one continuation high school. Morro Bay High School's 43-acre campus is unique in that it is one of only a few schools in the country bordering the Pacific Ocean. Morro Bay High is a four-year comprehensive high school, with a student population of 829 (CBEDS 2013-2014).

The mission of Morro Bay High School is to challenge each student to achieve his or her maximum potential in the areas of academics, critical thinking, occupational skills, social development, and personal growth. Upon graduation, "students will be capable of making responsible choices for a productive and satisfying life." Morro Bay High School is a 2005 and 2009 California Distinguished School, a 2006 National Blue Ribbon School, and was named by *U.S. News & World Report* as one of America's Best High Schools for 2008, 2009, and 2010.

Opportunities for Parental Involvement

Parent support at MBHS is well established. Numerous booster organizations offer invaluable financial support to curricular as well as extracurricular, and special needs programs. Our four parent booster clubs are: Aggie Backers, Athletic Boosters, Blue and White, and the Music Boosters. MBHS and our district have benefited from TEACH (The Endowment for the Advancement of Children), whose purpose is to foster excellence in the San Luis Coastal United School District by providing grants for special classroom projects and materials that benefit students.

Parents serve as members of our School Site Council, with one of its main tasks being to oversee the Single Plan for Student Achievement. Parents were actively involved in writing our WASC (Western Association of Schools and Colleges) report and action plans. MBHS received a six-year accreditation with a three-year review, which is the highest level of accreditation granted by WASC. Parents have an opportunity to attend our Back to School and Open House events each year. Parents know that they are a vital part of the school community. They know that the teaching staff is accessible and concerned about their needs. Parents, students and staff take a yearly survey, and our entire staff reviews the results. For further information concerning parental involvement, please contact our Volunteer Administrator Coordinator, Mrs. Kathy Buehler-Lipse, Assistant Principal, at 805-771-1845 ext. 2902, for the contact information for our four parent booster clubs.

III. School Climate

School Safety Plan

Morro Bay High School has five essential key elements towards safety: yearly updated plan, safety practice and inservices for all onsite staff, confidential phone tree, coordination with Morro Bay City and San Luis Obispo County emergency safety/disaster officials, and practice emergency procedures each school year on campus. The plan was last updated in February 2014, and reviewed with staff in March 2014.

Suspensions and Expulsions

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

Rate	School			District

IV. School Facilities

Facility Conditions and Planned Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the Buildings, Grounds and Transportation office.

Following is specific information on the condition of the school and the efforts made to ensure that students are provided a clean, safe, functional learning environment.

Age of School Buildings

Morro Bay High School has 60 classrooms, a multi-purpose room, two gymnasiums, locker rooms, a library and an office. The main campus was built in 1960; additions were constructed in 1962, 1964 and 1980.

Maintenance and Repair

The district maintenance staff ensures that repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. Many of our facilities were rehabilitated as part of our Measure A Building Program which began in 1996. District facilities are in very good shape.

Cleaning Process and Schedule

The Board of Education has adopted cleaning standards for all schools in the district. A summary of these standards is available at Buildings, Grounds and Transportation. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which is one of the programs included in SBX34 and is allowed the flexibility to be used for any educational purpose. The District has continued using the state funding to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Deferred Maintenance Projects

The complete deferred maintenance plan, approved by the Board of Education, is available at the Buildings, Grounds and Transportation office.

School Facility Good Repair Status

This table displays the results of the most recently completed school site inspection to determine the school facility's good repair status.

Core Academic Classes Taught by Highly Qualified Teachers (2013-2014)

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE *Improving Teacher and Principal Quality* Web page at: <http://www.cde.ca.gov/nclb/sr/tq/>.

IX. Student Performance

Please note scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of an individual student.

California Standards Tests

The California Standards Tests (CSTs) show how well students are doing in science in grades 5, 8, 9, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found on the Standardized Testing and Reporting (STAR) Results Web page at <http://star.cde.ca.gov>.

California Modified Assessment (CMA), an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.

California Alternate Performance Assessment (CAPA) includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at <http://star.cde.ca.gov>.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade 10 results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the CAHSEE Web site at <http://cahsee.cde.ca.gov/>.

X. Accountability

Academic Performance Index (API)

The API is an annual measure of the academic performance and progress of California schools. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information on the API can be found at www.cde.ca.gov/ta/ac/ap/.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks, which range from 1 to 10. A statewide rank of 1 means the school has an API score in the lowest 10% of all schools in the state; a statewide rank of 10 means the school has an API score in the highest 10% of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools; a similar schools rank of 10 means the school's academic performance is better than at least 90 of the 100 similar schools.

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics;
- Percent proficient on the state's standards-based assessments in ELA and mathematics;
- API as an additional indicator; and
- Graduation rate for secondary schools.

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria (2013-14)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District
Overall	No	No results 13-14
Participation Rate - English-Language Arts	Yes	
Participation Rate - Mathematics	Yes	
Percent Proficient - English-Language Arts	No	
Percent Proficient - Mathematics	Yes	
API	*	
Graduation Rate	Yes	

Federal Intervention Program (2014-15)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Indicator	School	District
Program Improvement Status	No	In PI
First Year of Program Improvement Implementation		2004-2005
Year in Program Improvement		Year 3
Number of Schools Currently in Program Improvement		6

XI. School Completion and Postsecondary Preparation

Admission Requirements for California Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the [University of California](http://www.universityofcalifornia.edu/admissions/general.html) Web site, <http://www.universityofcalifornia.edu/admissions/general.html>.

California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the [California State University](http://www.calstate.edu/admission/) Web site, <http://www.calstate.edu/admission/>.

Dropout Rate and Graduation Rate

This table displays the school's one-year dropout rates and graduation rates for the most recent three-year period for which data is available. For comparison purposes, data are also provided at the district and state levels. Detailed information can be found at the [DataQuest](#) Web site.

Completion of High School Graduation Requirements

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2012-13 school year in the 12th grade, as evidenced by that school year's October CBEDS enrollment, the following table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at the CAHSEE Web page at <http://www.cde.ca.gov/ta/tg/hs/>. Percentage is not shown when the subgroup included fewer than 10 students.

Career Technical Education Programs

We are confident that our students enter the work force with good-to-excellent knowledge in English, math, science and social studies. Our Expected Schoolwide Learning Results (ESLRs), those qualities we want our students to attain while in high school, are: Critical Thinkers, Effective Communicators, and Responsible Citizens. The knowledge they have learned and these three qualities all prepare them to be successful in the workforce. We have extensive CTE courses in agriculture, art, business, computers, journalism and newspaper, home economics, careers and technology, industrial technology, and social science. San Luis Coastal Unified School District has a CTE articulated agreement with Cuesta College. Completing the courses listed below will allow a student to receive Cuesta College credit.

XII. Instructional Planning and Scheduling

Professional Development

The district has funded an extensive professional development program using federal Title I Professional Development funds, Title II Teacher Quality funds, Title III Limited-English-Proficient funds, district funds, and site monies. All staff members have access to the comprehensive Professional Development Calendar that is developed annually.

The district's focus for staff development has been concentrated in the areas of Common Core State Standards, assessment, writing, mathematics, reading and mathematics interventions, and support for high quality classroom instruction. Although most of our students are achieving at high levels, some of our student populations are not. This data has provided the impetus for our District Initiatives and staff development. Professional development days are scheduled annually to provide needed training.

Various methods of support are provided to assist teachers with the implementation of professional development goals, including the following:

- Weekly collaboration time for all teachers;
- Release time using substitutes;
- Student performance data reports available in Illuminate;
- Assistance from EL Specialists, Instructional Coaches, and Teachers-on-Special Assignment.

Professional development days are scheduled annually to provide training on specific curricular areas, and/or assessment.

The School Accountability Report Card (SARC), required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about this school, parents and community members should contact the school principal or the district office.
